SUMMARY

Web Developer focused on ecommerce, landing pages, and funnel development. Experienced with Shopify, Instapage, CheckoutChamp, CRO, and launching high-volume marketing campaigns.

EXPERIENCE

2023 – Present Remote	Web Developer NativePath • Built and maintained 1,000+ landing pages and 400+ sales funnels in Instapage, including complex multi-step experiences and custom functionality • Led the technical implementation of product launches, including Shopify product setup, CheckoutChamp configuration, landing page development, funnel creation, upsell flows, checkout integration, Avalara tax setup, tracking implementation, and QA testing • Developed a pricing card builder used across the marketing team featuring tiered pricing, BOGO offers, live previews, and shareable campaign links • Developed custom widgets and CRO experiences including carousels, review sections, loading bars, interstitial pages, and exit-intent campaigns, contributing to tests with up to 53% revenue lift and 30% conversion improvement • Developed reusable purchase widgets supporting one-time purchase and Subscribe & Save options across multiple landing pages and product campaigns • Configured products, subscriptions, upsells, downsells, and funnel logic within Shopify and CheckoutChamp • Implemented conversion tracking, analytics integrations, marketing pixels, SEO improvements, and QA processes across landing pages and funnel experiences • Contributed to Shopify storefront development using Liquid, custom sections, and metafields
11/2025 – 03/2026 Remote	Contract Shopify Developer & CRO Specialist Rust & Salt LLC • Redesigned the Duckfeet USA homepage and product landing pages using Shopify Liquid and custom theme sections • Completed and launched a Bold Metrics sizing integration, bringing the project from partial implementation to production • Used Microsoft Clarity and heatmap analysis to identify UX friction points and inform conversion optimization decisions across storefronts.

EDUCATION

2022 – 2023	Junior Web Developer Program Generation USA 350+ hours covering JavaScript, HTML, CSS, Git, and web development fundamentals
2023	JavaScript Certification W3Schools
2000 York, PA	Associates Degree in Specialized Technology with a major in Interior Design Bradley Academy for the Visual Arts
